

HARD SKILLS

Cloud Platforms

GCP (Vertex AI · GKE · BigQuery · Cloud Run · Apigee) · AWS · Azure · IBM Cloud · OVHcloud · Hybrid & Multi-Cloud · Sovereign Cloud

Engineering Practices

DevSecOps · SRE · Platform Engineering · MLOps · FinOps · CI/CD · Zero-Trust · API-first · Microservices

Deployment & Delivery

End-to-end deployment planning · Workload ramp orchestration · Change management · Technical blocker resolution · Global systems integrator orchestration

Infrastructure as Code & CI/CD

Terraform · Ansible · GitHub Actions · ArgoCD · GitLab CI

Frameworks & Methodologies

SAFe · Kanban (cert.) · Scrum PSM & PSPO (cert.) · Lean Six Sigma Black Belt (cert.) · TOGAF · Team Topologies · OKR · Design Thinking · VSM

SOFT SKILLS

Executive Communication

Bridges technical depth and C-suite language — equally fluent in a boardroom and a sprint review.

Team Leadership

Builds and scales high-performing cross-functional engineering teams around Lean & Agile cultures.

Cross-functional Alignment

Drives consensus across engineering, product, legal, compliance, and commercial stakeholders.

Negotiation & Conflict Resolution

Manages competing priorities across multi-vendor environments while preserving long-term relationships.

Entrepreneurial Mindset

Re-founder. Intrapreneur. Builds internal platforms as ventures — comfortable with zero-to-one ambiguity.

PROFESSIONAL SUMMARY

Cloud platform delivery leader with **15+ years** of experience driving infrastructure adoption and accelerating time-to-consumption across regulated industries. Proven track record of moving enterprise customers from signed agreements to active cloud workloads — orchestrating end-to-end deployment plans, resolving technical blockers at code and architecture level, and coordinating global systems integrators and partner teams through complex multi-stakeholder environments. Deep specialisation in Financial Services and Telco; hands-on across GCP, AWS, Azure, and IBM Cloud. Certified Scrum PSM & PSPO, Kanban, Lean Six Sigma Black Belt; practitioner of SAFe, OKR, Design Thinking, and VSM. Formerly certified Google Cloud Professional Cloud Architect (2017–2019).

CURRENT ROLE

Engagement Manager · Deloitte, Technology & Transformation (T&T) · Mar 2023 – Present

Leading GCP and multi-cloud platform transformation engagements across Insurance and Financial Services — orchestrating deployment plans, clearing technical blockers, and driving customers from agreement to live cloud consumption.

SELECTED HIGHLIGHTS

- **IBM Consulting (2019–2023):** Architected and led a multi-cloud API & Developer Portal platform on GCP and AWS (Payments, Capital Markets) — 200+ API consumers. Authored Terraform modules; resolved Kubernetes and API gateway blockers in production. Orchestrated global systems integrator teams across 3 programmes, driving workloads from zero to full consumption.
- **OVHcloud (2017–2018):** Designed GDPR-compliant sovereign cloud architecture patterns for regulated FSI and public-sector clients; led pre-sales engineering translating requirements into structured deployment plans and consumption roadmaps.
- **Accenture (2018–2019):** Designed and delivered a retailer's Internal Developer Platform supporting 300+ engineers across E-Commerce, Supply Chain, and Loyalty squads — provisioning time 18 days → 4 hours, \$9M/year recovered, 3× deployment frequency increase.
- **Capgemini · Defence & Space (2015–2016):** Delivered PaaS platform engineering for a mission-critical embedded systems programme — zero-defect CI/CD pipeline in a classified environment.
- **Cognizant (2011–2015):** Built and managed pan-European cloud platform teams; introduced Agile, DevOps, and SRE practices across legacy transformation programmes in banking and telecoms.
- **GreenSaaS → Fiducial Cloud (2008–2011):** Head of Cloud Engineering for one of France's first SaaS/cloud platform providers — designed multi-tenant infrastructure from the ground up.
- **Founder · CloudLifters (2011–2015):** Cloud migration platform. Exited via M&A at 7× EBITDA.

KEY OUTCOMES

Engagement	Outcome
Open Banking Platform (EU Fintech)	90% reduction in time-to-first-API-call (3 weeks → 2 days); 30+ fintech partners live day one
AI Factory — Energy & Utilities (Global / GCP)	98% reduction in AI service provisioning time; GPU infra → self-service marketplace
Insurance-as-a-Service (North America FSI)	Partner onboarding 14 weeks → <3 weeks; 140+ regulatory controls cleared, zero findings
Internal Developer Platform (EMEA Telco)	18 days → 4 hours environment provisioning; \$9M/year recovered; 500+ voluntary adopters
